

2022 California Dashboard School Performance Report

The California School Dashboard is a key component of California's integrated state and federal accountability system. It provides communities with transparent and meaningful information about the performance of districts, schools, and county offices of education on six indicators: Graduation Rate, Suspension Rate, English Learner Progress, Academic Performance, and Chronic Absenteeism.

Below are links to the districts surrounding Edwards AFB including the Muroc Joint Unified School District that operates the on-base schools of William A. Bailey Elementary, Irving L. Branch Elementary, and Desert Junior-Senior High School.
