

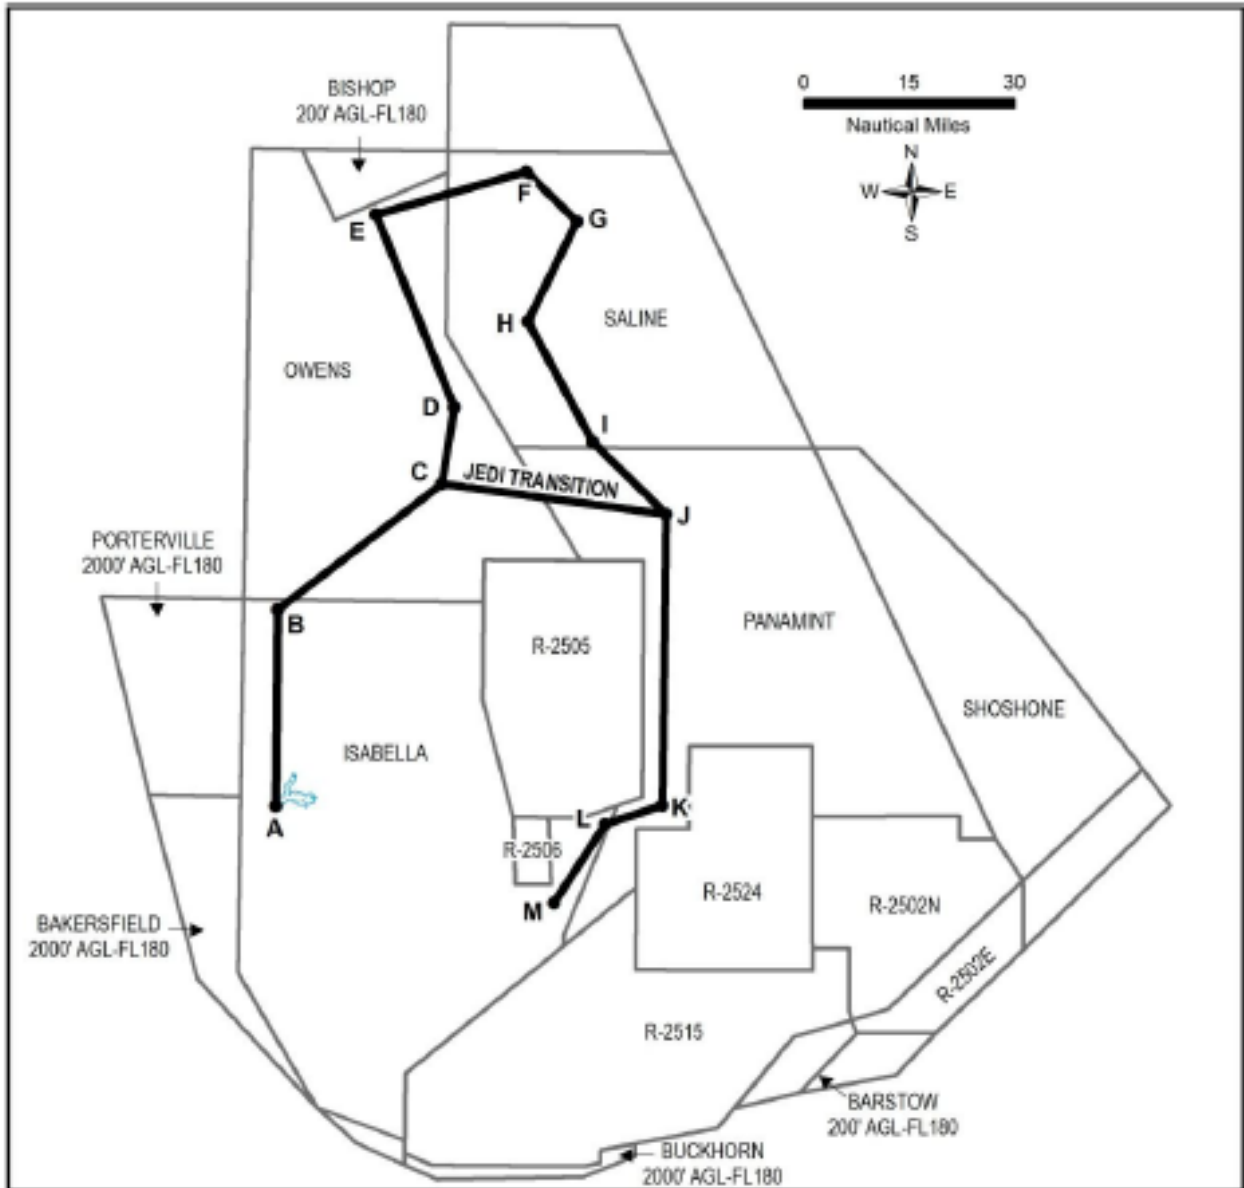

Figure 10.1. Sidewinder/Jedi Transition Low Level

10.2. Low Level (LL) Operations in the R-2508 Complex (Fig 10. 1).

The Sidewinder provides a Low Level Route through the R-2508 Complex with alternate entry and exit points. The Jedi Transition provides for a shorter route that may satisfy mission requirements. Sidewinder/Jedi low level route width is 2 NM either side of centerline and is flown clockwise only, course reversals are not authorized.
